In Employment and Unemployment

U.S. Department of Labor  
Employment and Training Administration  
August, September, October, November and December 1977

This bulletin provides the official list of areas eligible for benefits under a number of Federal area assistance programs on the basis of high unemployment. It also provides summary manpower data on 150 major labor areas.

Descriptions of the government programs for which an area may become eligible on the basis of high unemployment, and of the Department of Labor's program for classifying such areas, are found in the Section "Explanation of Area Classifications."

#### PREFATORY NOTE

As a result of the enactment of amendments to the Small Business Act on August 4, 1977, (Public Law 95-89), the Department of Labor is revising the present classification criteria used in designating areas in which establishments are eligible for preference in bidding on Federal procurement contracts under Defense Manpower Policy No. 4A. The revised classification criteria will be initiated shortly and will update and replace the present criteria, described on page 8 of this publication, which have been in effect for about 25 years. Detailed information concerning the revised classification criteria is being published in the Federal Register and will also be provided in a future issue of Area Trends in Employment and Unemployment.

## Changes Affecting Eligibility of Areas for Various Types of Federal Assistance

August, September, October, November and December 1977

### HIGHLIGHTS

In December there were no changes in the major areas. Officially classified by the Employment and Training Administration as "areas of substantial unemployment" (Groups D, E, and F).

Three major areas--Atlanta, Georgia; Lansing-East Lansing, Michigan; and Akron, Ohio--were removed in November. Two major areas--St. Louis, Missouri-Illinois and Spokane, Washington were removed in October. One major area--Jacksonville, Florida was removed in September. Six major areas--Stamford, Connecticut; Grand Rapids, Kalamazoo-Portage, and Saginaw, Michigan; Lorain-Elyria, Ohio; and Racine, Wisconsin--were removed in August. These changes reduced the number of major labor areas in the substantial unemployment category to 80 in December 1977. In December 1976, the number of substantial unemployment areas totaled 108. 1/

In addition to the revisions in major areas classifications, there were no "other" (not major) labor areas added to or deleted from the substantial unemployment list in December or November. In October, one "other" labor area was added while eight were deleted. In September, two "other" labor areas were added and nine were deleted. In August, two "other" labor areas were added while twelve were deleted from this listing.

All changes in area classifications made in December affecting substantial or persistent unemployment areas were effective for Federal procurement preference purposes on January 1, 1978. All changes made in November were effective on December 1, 1977. Changes made in October were effective on November 1, 1977. Changes made in September were effective on October 1, 1977. Changes made in August were effective September 1, 1977.

2/ An "other" area is any area--regardless of size--not included in the list of 150 major labor areas covered by the regular Department of Labor-State employment security agency monthly reporting program.

There were 1,171 areas classified in December and November 1977 as areas of substantial or persistent unemployment. The following tables show these areas arranged by size and nature of unemployment for August, September, October and November 1977.

Persistent unemployment areas are potentially eligible for all types of assistance available under the Public Works and Economic Development Act. The nine major labor areas now in the persistent unemployment category are San Francisco-Oakland, and Stockton, Calif.; Bridgeport and New Britain, Conn.; Mayaguez, Ponce, and San Juan, P.R.; Seattle and Tacoma, Wash.

In addition to these areas, 280 other labor areas plus two large cities-Newark, N.J., and Buffalo, N.Y.-- and nine separately classified counties are considered persistent unemployment areas.

#### Major Areas Classification Changes

In addition to the two major labor areas deleted from the substantial unemployment category in October 1977, four major labor areas already classified in the substantial unemployment category, changed their ratings in October. Waterbury, Conn., and Utica-Rome, N.Y. changed from Group E (9.0 to 11.9 percent unemployment) to Group D (6.0 to 8.9 percent unemployment) while Jersey City and Paterson-Clifton-Passaic, N.J., changed from Group F (12.0 percent or more unemployment) to Group E.

In December, November, September, and August, none of the 150 major labor areas changed their unemployment classification with the exception of those previously indicated which were removed from the substantial unemployment category.

The table below shows for the current month, the last four months, and a year ago, the number of major labor areas in the various letter classification categories.

Sections of Concentrated Unemployment or Underemployment

There were no changes in August, September, October, November or December in the list of classified sections of concentrated unemployment or underemployment. Parts of all of 421 cities, 677 counties, in all States, 31 Indian reservations, and the Commonwealth of Puerto Rico are classified as sections of concentrated unemployment or underemployment. As indicated in the Explanation of Area Classifications summary (page 8), firms in or near these sections which agree to hire disadvantaged workers are eligible for preference in bidding on certain Federal procurement contracts.

## explanation of area classifications

Each month the Department of Labor classifies 150 major employment centers according to the adequacy of their labor supply. The classifications are based on reports, prepared by the State employment security agencies, covering employment and unemployment developments and outlook in each area. A letter classification code, shown below, is assigned to each major area. The unemployment rate is a key factor in determining the area classification, but consideration is also given to the area's employment and unemployment outlook, local employer estimates of their manpower requirements, the relationship between labor supply and demand, the seasonal pattern of employment and unemployment fluctuations in the area, and other factors.

Labor Supply Category	Description	Unemployment Rate 1/
Group A	Overall labor shortage	Less than 1.5%
Group B	Low unemployment	1.5 to 2.9%
Group C	Moderate unemployment	3.0 to 5.9%
Group D	Substantial unemployment	6.0 to 8.9%
Group E	"	" 9.0 to 11.9%
Group F	"	" 12.0 or more

1/ Ratio of unemployment to area's total labor force.

### Areas of Substantial Unemployment

A labor area in which the current and anticipated local labor supply substantially exceeds labor requirements is classified as an area of "substantial unemployment." An area is placed in this category when:

- (1) Unemployment in the area is equal to 6 percent or more of its labor force discounting seasonal or temporary factors, and
- (2) It is anticipated that the rate of unemployment during the next 2 months will remain at 6 percent or more, discounting temporary or seasonal factors.

Major labor areas classified in Groups D, E, and F are regarded as areas of "substantial unemployment." The Department of Labor also classifies several hundred other areas when they meet the substantial unemployment criteria. These areas are not placed in specific letter classification categories. Areas of less than 1,500 population may be "certified" by State employment security agencies, upon authorization by the Department, as areas of substantial or persistent unemployment. Such areas are not included in the list of classified areas.

### Areas of Persistent Unemployment

A labor area, or a city of 250,000 or more population, or a county, may be classified as an area of "persistent unemployment" when unemployment during the most recent calendar year has averaged 6 percent or more of the labor force, and the rate of unemployment has:

- (1) Averaged 6 percent or more and has been at least 50 percent above the national average for 3 of the preceding 4 calendar years, or
- (2) Averaged 6 percent or more and has been at least 75 percent above the national average for 2 of the preceding 3 calendar years, or
- (3) Averaged 6 percent or more and has been at least 100 percent above the national average for 1 of the preceding 2 calendar years.

Annual average unemployment rates used in the classification of areas of persistent unemployment are listed below:

	1976	1975	1974	1973
National Average	7.7	8.5	5.6	4.9
50% above	11.6	12.8	8.4	7.4
75%	13.5	14.9	9.8	-
100%	15.4	17.0	-	-

### *Sections of Concentrated Unemployment or Underemployment*

Sections of concentrated unemployment or underemployment include all places participating in the Department of Labor's "Concentrated Employment Program," all "target areas" under the "Model Cities" program of the Department of Housing and Urban Development, all areas which were identified for Federal assistance to provide public service employment under Section 6 of the Emergency Employment Act of 1971 (P.L. 92-54), and Indian Reservations with a population of 4,000 or more.

### *Labor Areas*

A "labor area" consists of a central city or cities and the surrounding territory within commuting distance. It is an economically integrated geographical unit within which workers may readily change jobs without changing their place of residence. Labor areas usually include one or more entire counties, except in New England where towns are considered the major geographical units.

Major labor areas usually have at least one central city with a population of 50,000 or more. In most instances boundaries of major labor areas coincide with those of Standard Metropolitan Statistical areas as determined by the Office of Management and Budget in consultation with a Federal interagency committee.

Geographical boundaries of all classified areas are listed in an Employment and Training Administration publication entitled "Directory of Important Labor Areas." Revisions in labor area boundaries are listed monthly in the "Area Trends in Employment and Unemployment" bulletin.

### *Federal Procurement Preference*

Firms with establishments in areas of high unemployment and firms which agree to employ economically

disadvantaged workers are eligible for three kinds of preference in certain Federal contract awards under Defense Manpower Policy No. 4, revised.

First preference is extended to firms in or near sections of concentrated unemployment or underemployment or in an area of substantial or persistent unemployment which agree to employ at least 25 percent of their newly hired workers each month from among economically disadvantaged residents of the classified section or area. Second preference is extended to firms located in any area which agree to hire at least 15 percent of their new hires each month from among economically disadvantaged workers. Third preference is given to firms in areas of persistent or substantial unemployment, with no requirement to employ economically disadvantaged workers.

For purposes of this program, an individual shall be considered as economically disadvantaged who is a member of a family (1) which receives cash welfare payments, or (2) whose annual income in relation to family size and location does not exceed the most recently established poverty levels determined in accordance with criteria established by the Office of Management and Budget (OMB).

Applications for certificates of eligibility which are required for first or second preference are available from local offices of State employment security agencies serving the area where the establishment is located. No certificate is required for third preference. Firms not otherwise eligible may nevertheless qualify for preference by agreeing to subcontract a substantial proportion of a Federal contract to eligible firms.

Firms certified for first preference and firms located in areas of substantial or persistent unemployment are also eligible for preference under Executive Order 10582, implementing the Buy American Act. For purposes of the Buy American Act areas of persistent unemployment are considered to be areas of substantial unemployment.

<sup>1/</sup> Geographical boundaries of labor areas shown in capital letters, except as noted below, are identical with boundaries of Standard Metropolitan Statistical Areas (SMSA's) established by the Office of Management and Budget (OMB). Definitions of the Employment and Training Administration which differ from those of the OMB are: Anchorage, Alaska; Denver-Boulder, Colo.; Danbury, Hartford, Norwalk, and Waterbury, Conn.; Alexandria, La.; Fall River, Lowell, New Bedford, Pittsfield, Springfield-Chicopee-Holyoke, and Worcester, Mass.; Duluth-Superior, Minneapolis-St. Paul, Minn.-Wis.; Las Vegas, Nev.; New York, N.Y.; Ponce, P.R.; Providence-Warwick-Pawtucket, R.I.; Memphis, Tenn.; Salt Lake City-Ogden, Utah

<sup>2/</sup> Program eligibility extends only to corporate limits of the municipality, not to other portions of the labor area containing the city.

NOTE: Explanation of column headings and eligibility of areas under Federal assistance programs is contained in the "Explanation of Area Classifications" section of this bulletin.
